# The Bay State Nurseries

WINDSOR H. WYMAN, Proprietor

North Abington, Massachusetts.

# WHOLESALE PRICE LIST SPRING 1914

FOR NURSERYMEN, DEALERS, FLORISTS AND LANDSCAPE ARCHITECTS ONLY.

Trees, Shrubs, Evergreens, Vines, Roses and Herbaceous Perennials.

Long Distance Telephone, Rockland 26.

Cable Address, "Nursery," Boston.

Telegraphic Address, North Abington, Mass.

#### Location of Nurseries

The Bay State Nurseries are located in North Abington, Mass., 18 miles south of Boston, on the Plymouth division of the N. Y., N. H. & H. R. R.—half way from Boston to Plymouth. Trains leave the South Station at frequent intervals during the day. Visitors are always welcome. Our office is ten minutes' walk from the station. If notified, we gladly meet visitors at the station and take them about the nurseries.

#### The Shipping Season.

Our large storage cellars contain a full line of Roses, Shrubs, Vines, Fruit Trees and Small Fruits, all carefully graded and ready for shipment. Early consignments will be carefully packed and forwarded at the convenience of our customers. We usually begin digging about March 20th, and continue until the middle of May or the first of June. Evergreens and Herbaceous perennials can be successfully transplanted until the middle of June.

#### Directions for Shipping

Parties ordering are requested to state explicitly the mode of conveyance by which they desire their stock forwarded.

When no route is designated, we exercise our judgment; but in no case do we assume any responsibility after packages are shipped, unless for our own mistakes. When losses occur by detention, claims should at once be made on the TRANSPORTATION COMPANY.

### INSPECTOR'S CERTIFICATE ACCOMPANIES EVERY SHIPMENT.

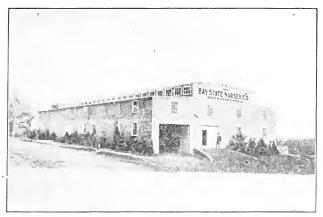

#### CONDITIONS OF SALE

First—The articles on the following list will be furnished at the annexed prices only when the quantity specified shall be taken. Five hundred will be furnished at the thousand rate; fifty at the hundred rate and five at the ten rate.

Second—While we exercise the greatest care to have all Trees, Shrubs and Plants genuine and reliable, and hold ourselves prepared to replace, on proper proof, all that prove untrue, we do not give any warranty, expressed or implied; and in case of any error on our part, it is mutually agreed between the purchaser and ourselves that we shall not at any time be held responsible for a greater amount than the original price of the goods. No complaints will be considered that are not made within ten days after receipt of stock.

Third—The prices annexed do not include the boxes or bales. A charge for the actual cost of the boxes or the material used in baling is made. No charge for conveyance to freight station.

Our terms are cash, unless by special agreement. We can ship by express C. O. D., when desired, with charges for collection added to the bill—provided 20 per cent of the amount of the order accompanies the same as a guarantee. Said guarantee will be required only from parties with whom we have no business acquaintance. All bills remaining unpaid December 1st in fall, and June 1st in spring, will be subject to sight draft without further notice.

PACKING HOUSE ADJOINING RAILROAD SIDING

#### ORNAMENTAL DEPARTMENT

NOTE—In compiling this list, we have endeavored to include only such varieties of stock as we have now in our nurseries, in sizes and quantities offered. In filling orders we shall grade stock according to these specifications. Should orders be received for sizes not found in this list, or should any specified grade be exhausted, we will send the nearest size we have in stock at the time the order is received and charge accordingly: unless otherwise advised.

Section of a block of several thousand Thuya Occidentalis growing in The Bay State Nurseries. See Page twenty-one for sizes and prices.

#### **EVERGREEN TREES**

These Evergreens are all thrifty and heavily rooted, and have been several times transplanted. We have a number of large specimen Evergreens in variety not listed, also choice sorts recently imported. They can be seen at the nursery when prices will be given. It will pay you to come and see them.

Roots burlapped at an additional expense of 5 cents each for trees up to 3 feet, all over this size 10 cents each; unless otherwise specified we will burlap and charge for same.

MAHONIA Aquilfolia (See Berberis aquifolia)

#### RHODODENDRONS

We are growing and importing many thousand Broad Leaved Evergreens, increasing our plantings from year to year. Our stock comprises the best Hybrids of the most hardy sort, and the native Catawbiense Maximum, and Alpine varieties; also Mountain Laurel (Kalmia latifolia). If you want nursery grown natives, we have them by the carload. If you require collected Maximums, we can furnish them by the thousand or any number required.

#### NOTES ABOUT RHODODENDRONS

The above list of Rhododendrons, we believe, includes the best varieties of Hardy Hybrids for New England. For twenty years we have tested them in various soils, both with and without shade, and have become convinced that the Rhododendron is not so finical as we, in common with many people, had supposed.

They will grow in almost any good loam where corn will thrive, and should be planted thickly so that the sun cannot shine directly on the roots. No excavations are necessary. They are a surface feeding plant and appreciate a reasonable mulching of decomposed vegetable matter. The roots should not be disturbed or exposed, but kept well protected by mulch about three inches deep.

For the first two or three years a little screening during the winter by covering lightly with evergreen boughs, so as to protect them from the March sun, is all that is necessary. It is not the cold of winter that kills them, it is the early spring frosts after a warm day or two, when the sap is brought to the foliage, that kills.

#### **DECIDUOUS SHRUBS**

Our shrubs are grown with plenty of space in the nursery rows to Insure good, vigorous growth, and they lift with strong roots; they are healthy and make quick development after planting.

A Partial View of Our Herbaceous Perennial Grounds, Showing Masses of Hardy Phlox in the Background.

#### HERBACEOUS DEPARTMENT

The growing of Herbaceous Perennials is one of the important features of our business. We have over fifteen acres devoted exclusively to the growing of Perennials. Our stock and variety of plants was never so large as now, and we feel sure that we can furnish this most popular class of plants from our fields that will be not only second to none, but far superior to much of the seedling pot-grown and divided stock which is being offered at low rates. Field grown stock of the proper size will secure for the planter the best possible results.

## HARDY PERENNIALS, FERNS AND GRASSES

Full descriptions will be found in our General Catalogue.

# WE GROW ABOUT EVERYTHING FOR PLANTING OUT OF DOORS THAT IS HARDY.

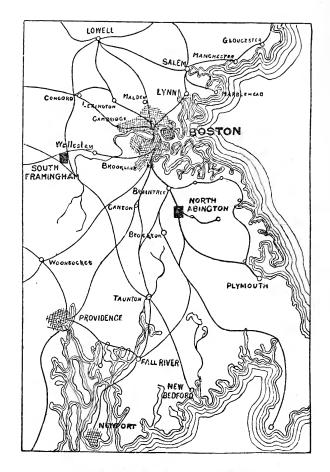

**Shade and Ornamental Trees** grown several feet apart in the nursery rows which insures perfect root-system and well developed heads.

Evergreen Trees and Shrubs in great variety, all transplanted so they lift with a ball of earth about the roots and transplant safely.

**Deciduous Shrubs,** all the leading and best varieties; of strong, thrifty and well rooted plants.

Vines in variety, all strong, field-grown plants.

**Roses** of all the best hardy varieties in strong field-grown plants, which bloom the first season after planting.

## AUTO-TRUCK DELIVERY

We make deliveries by auto-truck within reasonable distances from the nurseries when desired, and charge according to mileage and size of truck used. We are located 18 miles south of Boston.
